

---

**Can you  
guess what  
this is?**

---

---

**It's the time  
capsule that  
students and staff  
left for us back in  
the year 2000!**

---

---

**It took a lot of work  
to get out!**

---

**Facility  
Operator Ed  
tried first. He  
found it, but we  
couldn't pull it  
out or open it.**

---

**Our CBE Grounds team then tried to dig it out with a crowbar and pickaxe, but with no success!**

They came back with the muscle. They tied a chain from the bucket to the capsule. but that didn't work because they couldn't get the right angle so the chain kept slipping off.

# Let's try this! Do you see the difference?

Now

Before

---

# Here we go!

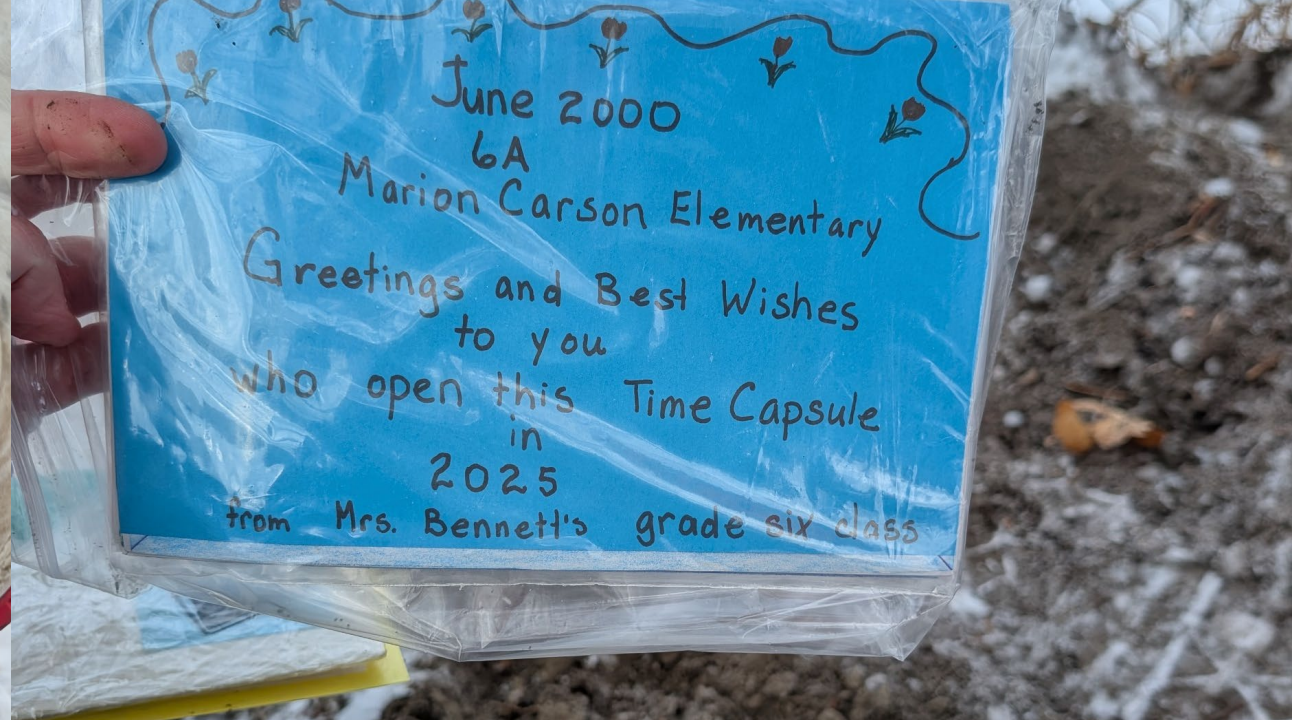

**Yay! We did it! We had a quick look in a surprise online school reveal assembly. Classes were invited to come have a look in detail once it was all placed on display in the Learning Commons.**

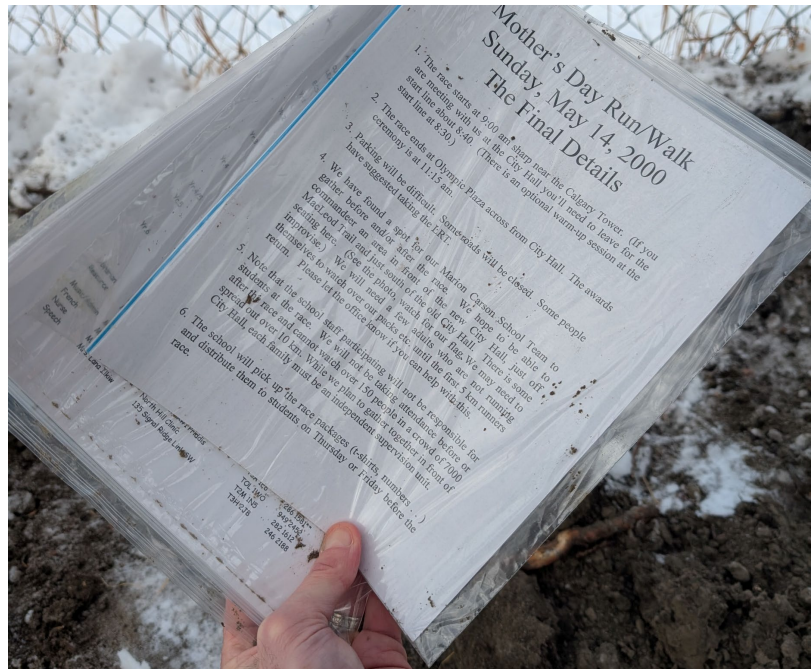

---

**Classes and guests are invited to come to learning commons to look through the items. Please be careful with the artifacts and leave them in their original space.**
